BUG REPORT

BUG_ID	TES SCENARIO	TEST CASE	BUG_DESCRIPTION	STEP TO REPRODUCE	EXPECTED RESULT	ACTUAL RESULT
bug_001	Homepage	Broken images on homepage	Some product images are broken or not loading, reducing user trust and engagement.	Scroll through homepage and inspect all images.	All images should be visible and correctly loaded.	Some product images are broken or not loading.
bug_002	User Registration	No validation for privacy policy checkbox	Form submits but reloads without informing the user to check the privacy policy box.	Navigate to Registration > Fill all fields > Leave 'Privacy Policy' unchecked > Submit.	User should see a warning to accept the privacy policy	Form submits but reloads without user guidance.
bug_003	Login	Remember Me' does not retain user session	The 'Remember Me' checkbox does not maintain the user session after browser restart.	Login > Check 'Remember Me' > Close and reopen browser.	User remains logged in or credentials are autofilled.	User must re-login; session not retained.
bug_004	Product Page	Product image zoom not working	Zoom feature is missing or non-functional on product detail images.	Open product page > Hover over image.	Image zooms or enlarges.	No zoom effect is observed.
bug_005	Cart	Cart total not updating with quantity change	When the product quantity is changed in the cart, the total price does not update.	Add product > Change quantity > Update cart	Total price reflects new quantity	Quantity changes but price remains the same.
bug_006	Checkout	No validation for invalid postcode	The system accepts invalid postal codes during checkout.	Go to checkout > Enter invalid postcode > Continue.	Prompt user to enter valid postcode.	Order proceeds without validation.
bug_007	contact us	No fallback when JavaScript is disabled	The contact form does not provide error messages or fallbacks when JavaScript is turned off.	Disable JS > Go to Contact Us > Fill form > Submit.	Form submits or shows JS requirement message.	Nothing happens, no feedback to the user.
